(iv) The three biggest challenges faced by the department in improving local government services

1. Low Revenue base, and operationalisation of the central market

Our Municipal council has very low revenue base and consequently the allocated funds for Finance department meagre. We depend on revenue from a few markets, trading licences, the bus/taxi park and building plans.

2. Inadequate office space, and staffing

Apart from the office of the Town Clerk, the rest of the Officers are congested in just few rooms which makes difficult for normal office operations

3. Inadequate transport, given the big size of the municipality.

Our entire Municipal council has only two pickup which is meant to be for Administration and Works department. The need and pressure on it makes it even unable to assist the Department.

(iv) The three biggest challenges faced by the department in improving local government services

1. Low wage bill

The department is supposed to have at least 11 staff according to the structure but am the only one running the department

2. Transport

It is clearly known that, production and marketing department is field best but not transport is provided to the department yet there is a lot to be done in helping farmers

3. Late release of grants

Grants are received from the treasury towards the end of the quarter therefore it becomes difficult to carry out activities and report the same quarter.

The budget outturn by the end of March was 372,694,000/= and 353,239,000/- was spent. At least 40% of the budget was achieved and 38% spent. The performance is below expected due to the fact that the development budget has not been tackled which is expected to be funded by local revenue which is highly constrained. Expected development revenue for development expenditure in Q3 was 44,084,000 which was not realized at all.

Department Revenue and Expenditure Allocations Plans for 2017/18

The estimated budget for 2017/18 for health sector is 904,411,000/- falling from 935,523,000/- approved for 2016/17. The budget reduction follows central government reducing sector conditional grant non-wage for Hoima Municipality by 57,675,000/- from 83,807,000/- for FY 2017/17. Local revenue contribution to the recurrent budget will be 63,000,000. All the budget is expected to be spent on the recurrent budget alone.

(iii) Details of Off-Budget Activities carried out by NGOs, Central Government, the Private Sector and

The sector plays a pivotal role in improving the social economic wellbeing though the budget remains meagre. However, no off-budget activities have been got though the opportunity remains open

(iv) The three biggest challenges faced by the department in improving local government services

1. Insufficient funds for both capital and recurrent expenditure

Funds allocated to the department are not sufficient to plan for and implement activities that can bring about health change. We have no donor or project funding to supplement and the PHC grants, both wage and non wage are too small.

2. Lack of transport for field work

The Municipal Health Office (headquarters) and all the six health units do not have even a single motorcycle so impairing implementation of environmental health activities, immunisation outreaches, monitoring and supervision activities

3. Little support from local leaders and community's negative attitude

Some health promotion programmes receive no support in fear of irritating locals or delineating politicians in the electorate. The community itself has a very low response to health improving initiatives or interventions e.g. handling of refuse.

(iv) The three biggest challenges faced by the department in improving local government services

1. Transport

The department has no reliable and effective means of transport so supervise, monitor and inspect school activities regularly.

2. Under staffing.

The department has only the inspector of schools substantively appointed. The remaining staff are in caretaker position and have stayed there for long. This is a demotivator in terms of performance.

3. Low participation of parents in schools affairs

Many parents after sending children to schools, they do not follow them up and even when they are called up do not contribute for any need in the schools many of them do not respond. Even when they are called for meetings it is the mother who responds.

The budget for 2017/18 is estimated at 8,316,199,999/- USMID alone takes 6,027,733,000/-. Roads maintenance under the Uganda Road Fund will take 855,102,000/- of the sector's budget. LLGs are expected to spend their UDDEG on roads and 757,550,000/- is earmarked for that. Sector budget for 2016/17 is more than twice expected budget for 2017/18 since 2016/17 had a balance on USMID of 9,851,500,000/- carried forward from previous FY.

All the revenue received was spent on salaries including the contract workers of Kibati waste compost plant. The low budget performance is attributed to the fact that the sector has never received releases for the capital investment and to this effect not capital project was executed.

Department Revenue and Expenditure Allocations Plans for 2017/18

The department expects a total revenue and expenditure of 251,438,000/-. It is expected to spend eight 23% on recurrent non-wage budget and 5% on wage recurrent budget. On the other hand 180,530,000 shillings has been allocated for livelihood non-wage development expenditure which in the medium term will result to reduction in environment degradation as people have alternative sources for livelihoods which are environmentally friendly.
