## **Sector:** Legislature

### **Foreword**

This is to submit to you the BFP of the above sector based on the MTEF indicated in the Budget Call Circular.

It's important to note that the sector MTEF allocation under the Development Budget for FY 2018/19 is adequate enough to cover all the development activities/ work plan for the FY 2018/19

However, there are Recurrent Budget priority requirements for the FY2018/19 being reflected as part of the un-funded activities as justified in the BFP, and accounts for the difference between the MTEF and the sector budget as submitted to H.E. the President mainly emanating from the gradual increase in the number of MPs in the 10th Parliament to 458 as more administrative units come on board and the planned hosting of the Commonwealth International Parliamentary Association conference in FY 2018/19.

The sector's strategic plan 2016/2021 will provide guiding Policy framework to address capacity challenges under the Multi-party political system in line with the national vision 2040, the National Development Plan, NRM Manifesto 2016/2021 and also covers issues highlighted in the 23 Presidential Directives of 2016 and other internal and external Planning Frameworks like the Sustainable Development Goals.

The sector challenges have been well articulated in the Budget Framework paper and some stretch over the medium term. It's on the above Back ground that the sector request that the resource gap reflected under the unfunded activities for FY 2018/19 be provided.
