Lastly, despite my Sector's nature of work that requires a lot of field work(fuel, vehicle maintainance, travel inland), printing of land titles(stationary), sensitization of the public through workshops etc, it (Sector) has experienced a significant budget cut of 28% as compared to current FY2016/17 while treating the above expenditure budget items as consumptive. This has detrimental repercussion on Ministry services especially those offered by the Ministry Zonal offices. These services may be put to halt as a result of failure to meet the operational running costs. However, there are other undesirable consequences that may include loss of Government revenue generated by the sector and escalation of land disputes which have hampered land use and in extreme cases leading to loss of lives.
