(ii) Matters to note in budget execution

The observed under performance in the budget was mainly due to the failure by the supplier to the deliver the heavy duty Imaging equipment as was planned. Thus the supplier was not paid the contract sum as planned leaving a high unspent balance as observed. The other reason was the delayed procurement of the contractor for the construction of the Bunker which resulted from the wide consultations on the designs for the bunker lading to slowed finalization of the dsigns. However currently the designs are inplace and Bills of quantities are being developed while the Institute has also already advertized for prequalification of contractors for the construction of the bunker. The other reason was due to low performance of the non-wage arising from water and electricity bills due to the fact that UCI depends on provisions given to Mulago by the bodies.

(i) Major unpsent balances

Programs, Projects and Items

1.43Bn Shs Programme/Project: 1120 Uganda Cancer Institute Project

Reason: The under performance under the capital budget was mainly due to the failure by the supplier to the deliver the heavy duty Imaging equipment as was planned. Thus the supplier was not paid the contract sum as planned leaving a high unspent balance as observed. The other reason was the delayed procurement of the contractor for the construction of the Bunker which resulted from the wide consultations on the designs for the bunker lading to slowed finalization of the dsigns. However currently the designs are inplace and Bills of quantities are being developed while the Institute has also already advertized for prequalification of contractors for the construction of the bunker

Items

1.38Bn Shs Item: 312202 Machinery and Equipment

Reason: The under performance under the capital budget was mainly due to the failure by the supplier to the deliver the heavy duty Imaging equipment as was planned. Thus the supplier was not paid the contract sum as planned leaving a high unspent balance as observed. However the equipment has been shipped into the country and currently pending provision of Letters of Credit as demanded by the supplier. These have been developed and pending approval by the authorities.

The staff (Human resources) constraint especially nursing and medical officers affects service delivery at the Institute. Financial constraint arising from high pressure on the little availble funds continues to constrain service delivery at the UCI. Since food is medicine, cancer patients deserve constant feeding (atleast five times a day - breaskfast, Lunch, Evenning tea and supper) but due to limited funds they are given three simple meals daily. The observed over performance in investigations was partly due to under budgeting on the part of laboratory investigations.

The Institute attended to 7590 patient days of outpatients who sought services at the UCI during the quarter. The Institute registered a total of 1040 new cases of cancer at the UCI during the quarter. Seven (7) short distance outreaches done in partnership with Family Rescue Initiative- Uganda, Kampala Community Church-Masanfo, Watoto	Inadequate funds forcing the Institute's Outreach teach to work with other partners Due to lack of transport means much of the education about cancer was done majorly in Kampala, leaving other country sides. There is limited Human resources like midwives to conduct screening for cancers in women and medical officers to manage referrals

The biggest challenge is wide buraucracies involved in Government procurements like consultancies on design of the structural designs of nuclear medicine buildings like the radiotherapy bunker which drags other activities based on the design backwards. This affects absorption of funds. Other challenges inline with procurement are the long process of procurement cycle and approvals. Due to the high pressure on the limited available funds the institute finds it hard to implement all it would have intended to achieve during the time especially arising from little resource allocations to the Institute. Currently the Institute workforce has grown but its budget remains very small. Also the coming up of other departments like the radiotherapy and Intrernal Audit impart high pressure on the vailable funds.
