- Renovation of old theater into a neonatal unit done and the unit operationalized to reduce the neonatal mortality in the region worth 90million
- Procurement of Specialized Machinery and equipment completed 30million
- Construction of Oxygen plant house and installation and commissioned done for worth 470million
- Procurement of assorted furniture for operationalization of the new OPD worth 20million
- Procurement of transport equipment was done worth 150million.
- 4 Internal audit conducted
- 4 Regional workshops out reaches.
- Planting and maintaining trees and grass to improve on the beauty of the hospital compound was done for worth 3million

Performance as of BFP FY 2017/18 (Performance as of BFP)

- No. of in-patients (Admissions) 2542
- Average Length of Stay (ALOS) 6 days
- Bed Occupancy Rate (BOR) 71%
- Number of Major Operations (including Caesarian section ) 691
- No. of general outpatients attended to 15597
- No. of specialized outpatients attended to 7097
- Referral cases in 126
- No. of laboratory tests carried out 20694
- No. of patient x-rays (imaging) 1210
- No. of antenatal cases (All attendances) 1108
- No. of children immunized (All immunizations) 4531
- No. of family planning users attended to (New and Old) 690
- Number of ANC Visits (All visits) 1,108
- Number of Childhood Vaccinations given 4,531
- Assets register updated on a quarterly basis 1
- Timely payment of salaries and pensions by the 2
- Timely submission of quarterly financial/activity
- Value of medical equipment procured (Ush Bn) Value 200,000,000
- Timely payment of salaries and pensions by the 20th of every Month
- Timely submission of quarterly financial/activity reports that is by 30th of the Month after the end of a quarter
Vote: 175  Moroto Referral Hospital

FY 2018/19 Planned Outputs

- 14,557 Admissions planned
- 80% Bed occupancy
- Average length of stay
- 1,200 Deliveries
- 1,476 Major surgeries
- 92,941 laboratory & pathological
- 6,886 X-ray examinations
- 4,066 Ultra sound
- 21,033 Immunization static
- 75,000 OPD ATTENDANCE
- Casualty cases
- 14,600 Special clinics outpatient
- Blood transfusion
- 2,000 Family planning contacts
- 4,500 ANC
- Assets register updated on a quarterly basis
- Timely payment of salaries and pensions by the 2nd
- Timely submission of quarterly financial/activity
- Value of medical equipment procured (Ush Bn) Value 200,000,000
- Timely payment of salaries and pensions by the 20th of every Month
- Timely submission of quarterly financial/activity reports that is by 30th of the Month after the end of a quarter

Medium Term Plans

1. Completing construction of 30 units staff accommodation to improve on attraction and retention of staff
2. Continue to lobby for the World Bank Project phase II for the inpatient facilities; like wards and theater
3. Start construction of a new maternity ward
4. Renovation of the Children and TB wards
5. Strengthening of support and technical supervision activities and health promotion and prevention activities through support to community health department.
6. Strengthening the regional workshop activities in the region through building the capacity of the leadership and recruitment of more technical staff, ensuring regional stakeholder meetings take place annually, involving the regional stakeholders like the CAOs, DHOs and Medical Superintendent and other health facility in-charges.
7. Lobby regional Stake holders for unfunded priorities like Isolation unit, follow-up of the ART patient, feeding of patients, support for transportation of dead bodies, operationalization of the Neonatal Care unit in the region, operationalization of the regional Blood distribution center.

Efficiency of Vote Budget Allocations
The votes plans to efficiently and effectively utilize the planned resources through; installation of rain water harvesting tanks on all new constructions and renovate the existing ones, appoint all hospital management committees to support top management in the day today management of the hospital. Ensure that there is an active and functional rewards and sanctions committee in place and operationalize the hospital biometric machines to support management of absenteeism. Operationalize vehicle trackers to reduce on cost of fuel and maintenance of its fleet. Make sure all staff are accessed on both payroll and pension payroll within two months and all staff salaries are paid by the 25th of every month.

V5: VOTE CHALLENGES FOR 2018/19 AND ADDITIONAL FUNDING REQUESTS

Vote Challenges for FY 2018/19
Vote: 175 Moroto Referral Hospital

1. Old, inadequate and dilapidated infrastructure especially wards, administration block and mortuary that are condemned and becoming public nuisance has negatively affected service up-take since most clients would prefer not to be admitted in the hospital wards.
2. Under staffing for both specialized and support staff, coupled with poor attitude towards work is a deterrent factor to quality services in the hospital.
3. Absence of incentives to attract and retain both specialized and support health staff like hard to reach allowance, high cost of living and high cost of accommodation, and lack of social amenities has contributed to poor attraction and retention of the hospital staff.
4. Failure to absorb all the wage, and capital development budget due to both vote based and external challenges like delayed and lengthy recruitment process and also management challenges at vote level.
5. Failure to absorb all the wage, and capital development budget due to both vote based and external challenges like delayed and lengthy recruited processes and poor management at the vote level. Which we are trying to address in this financial year.
6. Delayed and lengthy recruited process for the much needed staff is a challenge, as a result the hospital returned funds for wage back to the treasury.
7. High cost of utilities like fuel, electricity coupled with electricity supply being inconsistent and unstable hence affecting specialized medical equipment which is costly to repair.
8. Inadequate funds for major capital development infrastructure activities like staff accommodation hence scheduling the projects as multi-year projects.
9. Inadequate and stagnant NWR funding to support meeting the cost of allowances, fuel, electricity and rent for the hospital and staff.
10. Sparse population in the area increases our cost of service delivery in the region since more area and distance has to be covered to see few people especially during community out reaches.
