(ii) Matters to note in budget execution

The staffing level at the Institute is still at 58% thus leading to underperformance in wage. Institute is waiting for recruitment by Health Service Commission to fill the staffing gap especially of the critical staff which is to be addressed. Recruitment plan process has continued to be slow. The major reasons for the under performance during the quarter especially under the development funds was due to the following

reasons:- The funding for the new Home from IDB was not approved since we are to relocate some of the services to The Uganda Cancer Institute and Mwanamujimu to free space for the ongoing renovations in Mulago Hospital Complex.

The contracts committee approval for security equipment has delayed due to the impending relocation of some services to the Uganda Cancer Institute and Mwanamujimu.

The specialised machinery and equipment procured are highly specialised and customised and are not available on shelves and furthermore they

are manufactured only on order, according to specifications and their production is time consuming. The delay in procurement process was further due to late submission of warrant request for development funds. The contracts for the specialised equipments are signed based on release and availability of funds.

The delay in the procurement of the van for support supervision is because the contracts committee is awaiting clearance by Ministry of Health and Office of the Prime Minister before approval of the contract for the procurement.

The contracts committee approval for security equipment has delayed due to the impending relocation of some services to the Uganda Cancer Institute and Mwanamujimu.

The major challenges faced during the first and second quarter was under performance in wage which was due to delays in clearing recruitment plan by public service. Space challenges for clinical, teaching, research and operational purposes. The Institute is grossly overcrowded to the extent that even stores are kept in the open. Low attraction of super specialists especially Intensivists for critical care management.

Procurement plan in place to ensure timely availability of quality specialised drugs, chemicals, devices, pacemaker implants and sundries in quantities that are in tandem with the demand. However there has been a delay in the delivery of specialised equipment and machiner hence under utilisation of development funds.	The delay is because the machinery and equipment are highly specialised ans are only manufactured on order and their production is time consuming.
43 positions for critical staff cleared by Ministry of Public Service, and recruitment in progress by the Health Service Commission.	The health Service commission cleared 34 vacancies for critical positions by october and recruitment is on going. However the staffing level by the end of the quarter stands at 58%. A further submission for 28 positions has been submitted pending approval by the MoPS and HSC	The variations are due to the delays in the approval and recruitment processes.

Checklist for OBT Submissions made during QUARTER 3

This is an automated checklist which shows whether data has been entered into the areas which are required for a complete quarterly submission. It does not verify the quality of the data that has been entered. A complete checklist is therefore a necessary, but not sufficient condition for a satisfactory submission to MoFPED.

Project and Programme Quarterly Performance Reports and Workplans (Step 2)
